Can [Ex. 6 - Personal Privacy] legally give access? [Ex. 6 - Personal Privacy] is not the property owner.

Sampling will likely take at least 2 hours. So [Ex. 6 - Personal Privacy] would likely be late for work. We need to know if [Ex. 6 - Personal Privacy] has a water buffalo. If so no tap sample is required - sampling goes faster.

We will sample [Ex. 6 - Personal Privacy] on Monday afternoon.

Tuesday should be open for [Ex. 6 - Personal Privacy] either in morning or afternoon.

Sampling Scheduled appts.

[Ex. 6 - Personal Privacy] property = Sampling appointment for **Monday** Jan 23rd, No time has been designated so we can call [Ex. 6 - Personal Privacy] to confirm

Sautner property = At the moment we have them down for **Monday** Jan 23rd ~3 p.m. (this was before I knew about the 8a.m. and 1 p.m. time slots) We can talk about rescheduling when we fill their water buffalo tomorrow. I already approached the subject by saying that we "may have a different crew coming in and may need to push it into Tuesday, but

lets talk tomorrow... blah blah..."

On **Tuesday**, Jan 24 between **8** and 8:30 a.m. the [Ex. 6 - Personal Privacy] are scheduled for sampling. [Ex. 6 - Personal Privacy] has to leave for work at 9 and would like to be present for the sampling.

Also on **Tuesday**, Jan 24, at 1 p.m. the [Ex. 6 - Personal Privacy] are scheduled for sampling. Their schedule is flexible if this turns out to be a bad time. We can confirm with them when we fill their water buffalo tomorrow. (Also mentioned that we'll need to change plumbing over to WB instead of the well).

I'm leaving the office and heading to Clark Summit. Call my cell if any ?s

I have ~100 fact sheets printed out. Carrie Deitzel is meeting me at the hotel as soon as she gets to town tomorrow a.m. to help distribute.

Subject: Call list status update

The **4** residences that are getting water have been called. 1 out of the 4 is not home and does not have an answering machine [Ex. 6 - Personal Privacy] We are continuing our efforts.

The **4** remaining of the eight that thought they were getting water, but are not, have been contacted.

These 8 and an additional 34 residents have been contacted -- for a total of **42**. There are a few residents that have either disconnected numbers or no answer/no machine. We will continue to work on contacting these folks in the morning.

As of tonight, we called all residents that we have working numbers for and know that we will be sampling. There are an additional 13 residents that may be sampled. We are looking into that possibility before calling them over the weekend.

Call my cell if any questions 215) 514 2732

Thank you Kathy, Helen and Alex for your help.
